# Index to Volume XVII (1980)

The number in the parentheses indicates the issue in which the article will be found; the final number indicates the page.

Alley, J. M. The effect of self-analysis of videotapes on selected competencies of music therapy majors; *17* (3) 113.

Appel, M. J. Arts for the handicapped: A researchable item; *17* (2) 75.

Asmus, E. P. Affective course entry perceptions of music therapy students in professional and preprofessional courses; *17* (2) 50.

Braswell, C., Decuir, A., & Maranto, C. C. Ratings of entry level skills by music therapy clinicians, educators, and interns; *17* (3) 133.

Carsrud, K. B. See Saperston, B. M.

Chan, R. See Saperston, B. M.

Decuir, A. See Braswell, C.

Furman, C. E. See Hanser, S. B.

Gilbert, J. P. See Nicholas, M. J.

Greenfield, D. G. The use of visual feedback in training music therapy competencies; *17* (3) 94.

Hanser, S. B., & Furman, C. E. The effect of videotape-based feedback versus field-based feedback on the development of applied clinical skills; *17* (3) 103.

Holloway, M. S. A comparison of passive and active music reinforcement to increase preacademic and motor skills in severely retarded children and adolescents; *17* (2) 58.

Humphrey, T. The effect of music ear training upon the auditory discrimination abilities of trainable mentally retarded adolescents; *17* (2) 70.

Maranto, C. D. See Braswell, C.

McGinty, J. K. Survey of duties and responsibilities of current music therapy positions; *17* (3) 148.

Miller, R. See Rohner, S. J.

Moreno, J. J. Musical psychodrama: A new direction in music therapy; *17* (1) 34.

Morphew, C. See Saperston, B. M.

Nicholas, M. J., & Gilbert, J. P. Research in music therapy: A survey of music therapists' attitudes and knowledge; *17* (4) 207.
